

Fodder distribution wagon

FVW

Optimum fodder discharge
– easy operation

Robust design, easy operation

and homogeneous fodder discharge are the great advantages of the Strautmann fodder distribution wagon. Four different sizes, from 10 – 16 m³, are available. Whether equipped with front or rear distribution unit, all FVW models offer optimum distribution of the fodder in the stable.

Bottom hitch

optionally possible top hitch standard

and higher speeds available with spring-loaded tandem axle. (Weighing device only available with single axle)

Additional mixing and dosing drum

- Optional on FVW 100 & 120 models
- Better mixing of fodder by means of more swirling

Swing back panel

- On FVW models with front discharge
- Standard transport floor reverse function enables rear discharge

Au

Weighing device PTM HL 50

- Weighing device available as an optional extra
- Programmable without data transfer
- Enables accurate feeding
- Management of 50 recipes from up to 30 components

Radio remote control PTM AV 50

- Matching the HL 50
- Up to 30 m of range
- Comfortable remote control of the HL 50
- Additional display on the charging vehicle

erstandsfähige Stoßkante

s Recycling-Kunststoff ximale Haltbarkeit

Standard dosing drums

- Mounted in a closed casing for stability and long service life
- FVW 100 & 120 2 drums
- FVW 140 & 160 3 drums

Slip-proof transport floor

- 13 mm strong transport floor chains
- Robust strips for maximum heavy-duty conditions
- Automatic chain tensioning
- Hydraulic feed function for even transport of fodder

Robust crossover conveyor

for right-hand and left-hand discharge. Available with optional speed adjustment. Front or rear discharge possible.

B. Strautmann & Söhne GmbH u. Co. KG is a medium-sized family-owned company located in the administrative district of Osnabrück having already celebrated its 80th anniversary of existence and now being managed by the third generation. In a modern plant at the second production site in Lwówek (Poland), Strautmann manufactures individual machine components and, apart from that, also parts

of the machine programme such as tipping trailers, buckets or shear grabs. As a machine manufacturer offering a wide range of machinery for cattle feeding, green fodder harvesting, universal spreaders and transport technology as well as in the field of charging and dosing technology for biogas plants, Strautmann is the competent partner for almost any customer in this industry.
